

MALMET

MALMET DETERGENT

CONTAINS: POTASSIUM HYDROXIDE <10%

Malmet Machine Detergent Concentrate is a highly active, concentrated detergent formulated for use in machine washing systems for medical items and instruments. Malmet detergent is compatible with glass, plastics, stainless steel and other materials which would normally be subjected to machine washing. Automatic dispensing will give the appropriate dilution in most instances.

Malmet products have been laboratory tested by external organisations with Malmet detergent to ensure that the articles are cleaned to meet and/or exceed efficacy tests outlined in AS/NZS 4187 and ISO 15883.

ARTG Certification 190013
